CONTROL YOUR AIR CONDITIONING FROM WHEREVER YOU ARE

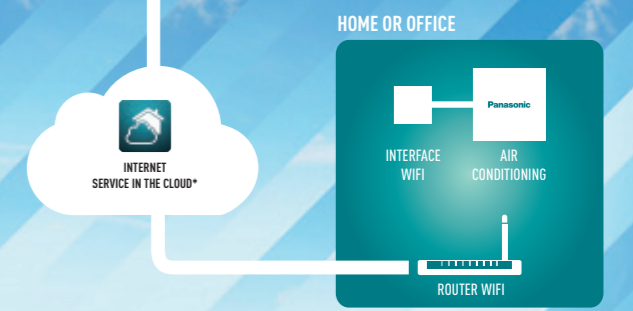

CONTROL YOUR COMFORT AND EFFICIENCY WITH THE LOWEST ENERGY CONSUMPTION

CONTROL YOUR AIR CONDITIONING WITH THE INTESISHOME SMART DEVICE VIA SMARTPHONES, TABLET & PC VIA INTERNET

Offering the same functions as if you were at home or office: start/stop, Mode Operation, Set Temperature, Room Temperature etc. as well as the new, advanced functionality provided by IntesisHome® to achieve the best comfort and efficiency with the lowest energy consumption.

TAKE CONTROL FROM WHEREVER YOU ARE!

* Service in the cloud: This is a service provided online and accessible from anywhere via internet.

INTESISHOME® EASY TO INSTALL. MAXIMUM BENEFIT

IntesisHome® is underlined with the slogan "Your home in the cloud", meaning a simple and easy to handle solution has been considered for every user to manage the device, not requiring any communication or computer skills.

No servers. No adaptors. No wires. Just a small box to be connected and placed close to the air conditioning indoor unit is needed... and your smartphone, tablet or PC.

Your existing WiFi connection does the rest when you are at home. Start the App from your smartphone device, your tablet or your computer, and enjoy a new experience in comfort. And if you are out of home, just launch the App, and manage the air conditioning of your home from the cloud. An intuitive and user-friendly application on the screen of your smartphone or PC let you manage the air conditioning unit in the same way you do with the remote controller at home.

IntesisHome® can be downloaded in Apple's AppStore and Android's PlayStore

(See link for further details)

CONTROL AIR CONDITIONING FROM EVERYWHERE, WITH YOUR SMARTPHONE, TABLET OR PC VIA INTERNET

FLAGSHIP

AQUAREA

PACI FS MULTI

ECOi

ETHEREA AND FLAGSHIP AIR TO AIR

With its innovative design, high efficiency and incomparable purification system, the Etherea and Flagship ranges has been designed thinking about you.

Living an eco lifestyle doesn't mean you need to compromise on comfort. With inverter control, you can still enjoy refreshingly cool air or powerful, comfortable heating, even in the coldest months, while reducing energy consumption by half. Panasonic air conditioning are ready to deliver the power you need for all-day, also providing benefits for health and welfare.

AQUAREA AIR TO WATER HEAT PUMP

Aquarea's new air-to-water heat pump for residential application from 3 kW to 16 kW. The biggest line-up on the market to meet your demands! Cost-effective and environmentally friendly.

This creates perfect comfort whatever the weather conditions, even at outdoor temperatures as low as -15°C.

Panasonic new heat pumps are designed in response to the new demand for low consumption housing, with high efficiency and low running cost's.

PACI, FS MULTI

Professional solutions for medium small installations. Panasonic's new FS Multi systems and Paci are specifically designed for energy savings, ease of installation and operation of high efficiency, with a wide variety of outdoor functions and models of the indoor unit and the only one that are designed for the busiest offices, small and large buildings.

Benefits: • Easy to install units • No additional gas needed (for 4, 5 and 6 HP) • Indoor units match Etherea wall mounted designs • Self diagnostic function with 7-seg code display for a easy set-up and repair.

Example of applications: Apartments, Bungalows, Office, Shop & Boutiques

ECOi

Professional solutions for large projects. Panasonic's new ECOi are specifically designed for energy savings, ease of installation and operation of high efficiency, with a wide variety of outdoor and indoor units. ECOi is specifically designed for the most demanding offices and big buildings.

Benefits: • High efficiency system • From 8 to 20 HP in only one chassis • Extended operating range to provide heating at outdoor temperature as low as -25° C • Suitable for renewal projects.

James, architect

"As an architect, I'm proud of my home. Unfortunately, the pace of my life revolves around airports on all five continents.

Because of this, whenever I get the chance to enjoy even just a few days at home, I programme my Panasonic Multi Split System from my tablet and from wherever I happen to be, so that I can enjoy the comforts that the system gives me from the minute I arrive home."

"I was sick of heating my house in the mountains on the weekends when I couldn't go. It was a pointless and annoying expense.

But now, with IntesisHome, I've managed to put the rigidity of weekly programming behind me. If I go then I just put my Panasonic Aquarea heating system on. And if I don't go then I go to the cinema or the theatre with the money I've saved."

Helen, freelancer

IntesisHome®

Alice, shop owner

"I want maximum comfort and the best savings for my shop. And I manage to get these in the easiest and most natural way possible. From my smartphone, something I always carry with me, I can control the temperature of my shop and in this way, as well as maintaining an ideal temperature I also save a small fortune in electricity at the end of the year."

"My business is growing but I still want to feel like I'm in control. So I carry out all the arrangements, transactions and operations I can from my mobile.

From bank transactions, processing orders, to controlling the temperature at the company's different plants; I do everything from my smartphone thanks to IntesisHome and Panasonic."

Paul, business man
